

exo designer

FAST, EFFICIENT, OPTIMIZED SOLAR TRACKER LAYOUT.

ExoDesigner is a **free, easy to install AutoCAD add-on** that allows you to **draw any power plant** to be equipped with Exosun's solar tracking system.

DESIGN YOUR AUTOCAD LAYOUT IN 4 EASY STEPS

CREATE YOUR
TRACKER

CREATE YOUR
PLANT

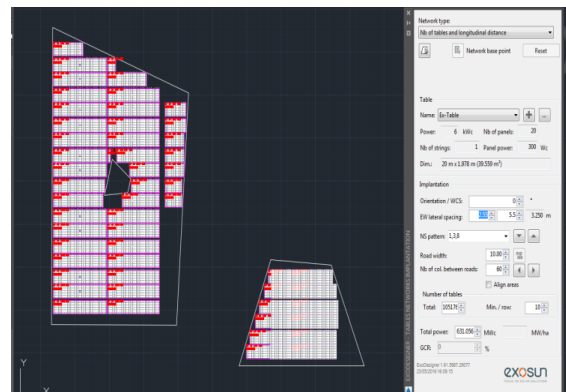

IDENTIFY
TRACKERS

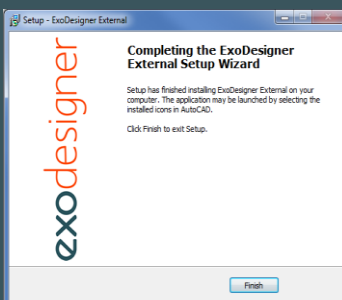

SUMMARIZE

This time saving tool is added to your existing AutoCAD software so you can **keep on working on your existing layouts** or create new ones.

In only a few seconds, draw your power plant, **test and compare multiple tracker configurations** to achieve the best solution for an optimized LCOE.

Compatible with any AutoCAD 2010 version and higher. Available in English or French

I WANT IT!
